DETAILED ACTION

This office action is in response to the after final amendment filed July 3, 2006. In accordance with the amendment, Applicant has incorporated previous indicated allowable subject material into the independent claims (1, 18, and 23). Claims 1, 18, and 23 have been amended, while claims 29-31 have been canceled (claims 26-28 had been previously canceled). Claims 1-25 are pending.

Allowable Subject Matter

1. Claims 1-25 are allowed. The following is an examiner's statement of reasons for allowance: the relevant prior art of record does not teach or reasonably suggest the specific limitations of having a stiffening plate in which a *coefficient of thermal expansion approximately matches* a coefficient of thermal expansion of the optical fibers for reducing relative movement between the elements and for substantially eliminating stress in the fiber. The closest prior art of record (Tabuchi U.S.P. No. 5,764,832, Kosemura U.S.P. No. 6,330,377 B1) does not teach or reasonably suggest this specific claim limitation as amended into each independent claim (1, 18, and 23).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
